

DSTV, INTERNET, TELEPHONE, INTERCOM, ACCESS CONTROL & IP BUILDING SERVICES

## CONVERGED SERVICES THROUGH FIBRE OPTIC TECHNOLOGY

Comtel Installs an Open Access High Speed Fibre Network to Future Proof all your requirements.

**DSTV – Internet – Telephone – Intercom – Access Control – CCTV Security**

### Get Comtel Fibre NOW... Become a Fibre Commando!!!

#### DSTV

Super Ultra HD and 3D TV is almost here. The existing copper cables are not able to support these high speed digital demands without major costly upgrades to the old infrastructure!

#### INTERNET

Broadband Internet speeds (and our expectations) are increasing rapidly. Having lightning fast Internet is becoming the industry norm.

#### BUILDING SERVICES

All building services including Intercom/Access Control, CCTV/Security and Fire detection runs efficiently over a single consolidated Fibre Network.

#### PROPERTY VALUE

Having a Future-Proofed robust and reliable Fibre Network considerably increases the property value and relative demand.

#### COMTEL'S FIBRE NETWORK

Comtel provides a complete 'Future-Proofed' Fibre Network that supports all IP services including DSTV, Internet, Telephone and Intercom Access Control.

#### OPEN ACCESS NETWORK

Comtel operates and manages an Industry Standard Open Access Network, so residents can choose their Service Provider.

#### WIRELESS FAILOVER

Comtel installs a failover Microwave link as backup to the Fibre Link i.e. should the Fibre fail, Internet and telephone services will continue uninterrupted while Technical Teams attend to the Fibre fault.

#### MAINTAINING THE NETWORK

Comtel manages and maintains the Fibre Network and DSTV head-end equipment that supports Explora, Ultra HD, Super Ultra HD and 3DTV.

#### CONTACT CENTRE

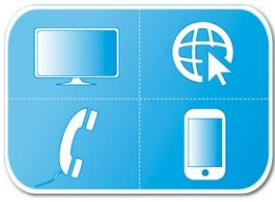

Comtel runs a 24/7 Contact Centre.

#### THE COST INVOLVED

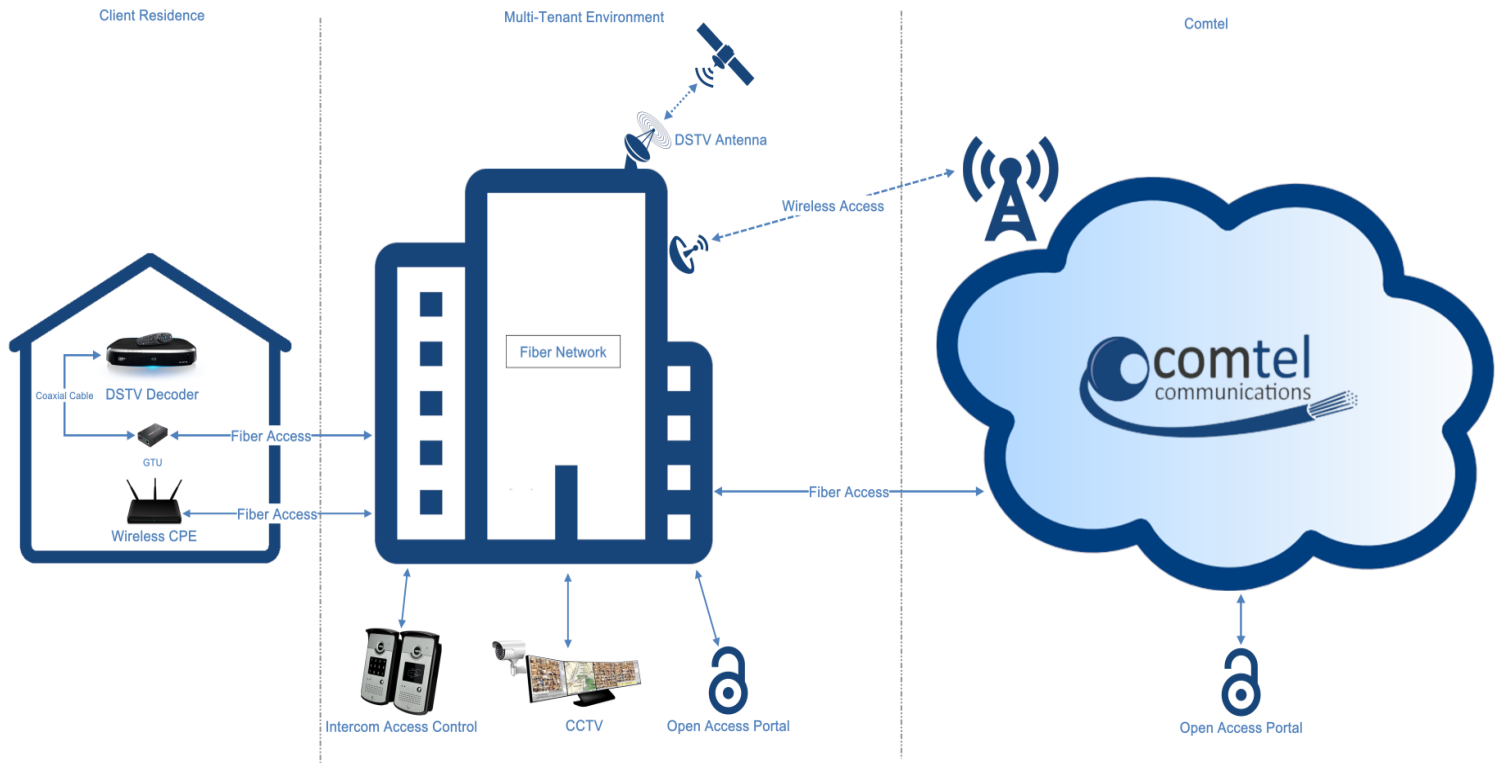

Comtel installs and maintains the fibre network, free of charge.
